ROBERT J. KUNDERD CARRIES ON!

A. E. Kunderd is my father. His life was spent developing gladioli strains that are now known in all parts of the civilized world as his creations. The enormous business which grew up under his careful efforts always to satisfy his customers, is now out of his control. Therefore, I am not in a business opposed to him.

I have received so many letters from my father's friends and former customers showing clearly that they are confused. I am very anxious that they understand just exactly what the facts are. At the time this catalog was placed in the mails, MY FATHER, A. E. KUNDERD, NO LONGER WAS CONNECTED WITH ANY ORGANIZATION GROWING OR SELLING GLADIOLI BULBS. During the depression he lost his large business that he founded years ago, and I, Robert J. Kunderd, AM THE ONLY MALE MEMBER OF THE ORIGINAL FAMILY BEARING THIS NAME THAT IS IN THE GLADIOLUS BUSINESS.

Beginning as a small boy at the age of seven, helping my father in the fields, it became second nature for me to compare the qualities of the blossoms and bulbs, and from the many hundreds of varieties that I have handled during my lifetime, I found I was mentally forming standards that I would some day use if I ever started my own gladiolus business. Years ago I began my own private record books and every season I have closely checked the varieties that I favored and which were the favorites of the many hundreds of visitors to my father's Gladioli fields. Sometimes it was hard to discard pet glads when better varieties were developed to take their place. But I had set my goal at approximately 150 gladioli varieties

that would equal or surpass anything in the gladiolus world.

Another idea which developed in my mind over a period of years was that the majority of gladioli lovers were people in ordinary circumstances like myself and it certainly was a pity to keep such beautiful flowers out of the reach of these men and women. This is my reason for pricing the finest at from 5c to 25c per bulb. I have had lots of opposition to my plan, but have decided to go through with it and prove that I am right. I believe that I can conduct a successful business by giving my customers varieties that come up to my own critical standards at prices well within the reach of everybody.

I grow no gladioli mixtures because there are varieties that produce more abundantly than others, thereby making unbalanced mixtures—too many of one kind and not enough of other varieties. At my low prices for named kinds, you may order what you want and know what you are getting. I have always thought that buying mixtures was like buying a cat in a sack or something sight unseen.

Every order will receive a full measure of personal interest so as to be sure that each customer receives all that is expected and more. Many other things that will help serve the customer in the best way possible are constantly kept in mind.

Twenty-nine years of actual experience in the growing of gladioli for my father, A. E. Kunderd, Goshen, Indiana, and five years growing gladioli for myself, put me in a position to intelligently take care of the gladioli needs of my customers.

FLOWERS

'Mongst flowers pure I love to trod
In gardens fair or in the sod.
I like to take them in my hand
And look into their faces grand.

They come in every shade and hue
From purest white to dainty blue.
No grander beauty could there be
That ever human eye could see.

Not only for the young are they
But also for the old and gray;
To love, to hold, to keep so dear
And fill their kind old hearts with cheer.

Three Wonderful Collections

Bargains that Fit Your Pocketbook

A customer that is pleased with my bulbs and service is the best "ad" that I could ever hope to get. It is my ambition to produce gladioli from only *CHOICE* varieties, *TRUE TO NAME*, with *HIGH QUALITY* bulbs at *PRICES LOW ENOUGH* to meet the gladiolus needs of the average person.

After carefully figuring my production costs, order filling expense, etc., I find that if I use some of my spare time before the order filling rush begins in the Spring, in making up and *LABELING* these standard collections selected from some of my best varieties, so as to have them ready for mailing without any further cost, I can save a large part of my labor expense. I am passing this saving on direct to you, because the more you can save, the more bulbs you can afford to buy, and every bulb I ship is a silent salesman for me.

Those of you who delay ordering might find that my prepared collections have run out on some varieties. In such cases, I shall replace them with other varieties of the same color and price, as nearly as possible. Please keep in mind that there can be *NO CHANGES IN THE COLLECTIONS*, because that will cause extra work and add to my expense. This cannot be allowed at such prices. So please do not ask me to substitute other varieties. It cannot be done.

In making up these collections I will use only large fine bulbs which measure 1¼ inch and up in diameter, as these produce the finest spikes. Guaranteed true to name, each variety *SEPARATELY LABELED*.

Postage prepaid by me on *THESE COLLECTIONS IN U. S. A.*

See my Special Inducements for early orders on page 8.

Please remember that there can be no *NO SUBSTITUTIONS OR CHANGES* in these *COLLECTIONS* unless I find it necessary when certain varieties are exhausted.
